The House of Representatives were also ocsury But how can we say that we shall not | cupied this morning in receiving similar peti again have as much as there was at the begin tions and remonstrances ning of this year We had then forty two mid hons. Thirty-seven more than the President's estimate Add this to the ten milli us, and it idle This would be nearly five sixths of all the specie in the country, if there were lut six. there were eighty milions. Now that even one port their mit mous binkrupt law half of all the solid money of the country should be locked up by the government so as to be of no use to itself or its citizens, seems a suposition almost too extravagant to be possible And yet if the plan proposed by the President had been in operation a year ago, this would have been an actual fact. With eighty mil hons of specie in the country we should have had five millions passing backwards and for wards to no purpose, and forty two millions stowed away in the strong boxes of the Receiv- upon another, as hid beend me by the U S, ers and the Receivers General, and but thirty | Mr. C. looked up n as cruel and disgracuful to three millions in actual use for the business of the country who employed them.
